2.1: New Features

Household Survey Information Status Report

Districts using the Household Survey feature now have access to the Household Survey Information Status report.

The screenshot shows the 'Household Survey Information Status' report interface. On the left is a sidebar menu with 'Household Survey Information Status' highlighted. The main area has filters for 'Export Report To' (SCREEN), 'School Selection' (Schools), 'From' (9/1/2020), 'To' (12/17/2020), 'School' (ALL), and 'HHS Info Status' (ALL). Below the filters is a table with the following data:

2.2: Enhancements

Provision 2 Claiming Percentages

The Provision 2 Claiming Percentages table previously supported two decimals places. After the update, users will be able to enter percentages up to four decimal spaces ie. 15.1234

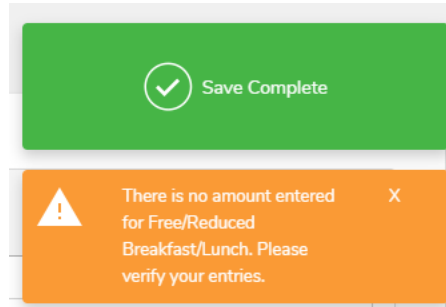

If more than four decimal values are entered, the value will be rounded. For example, if the user enters 33.1237992 then the grid will display 33.1238.

Breakfast			Lunch		
Free	Reduced	Full Pay	Free	Reduced	Full Pay
25.3699	30.0000	44.6301	15.9633	0.0000	84.0367

Users are not required to provide values for Free and Reduced percentages, but the Breakfast and Lunch percentages are required to total 100%. The Full Pay percentage field will auto calculate based on the Free and Reduced entries. The Full Pay percentage fields are not editable.

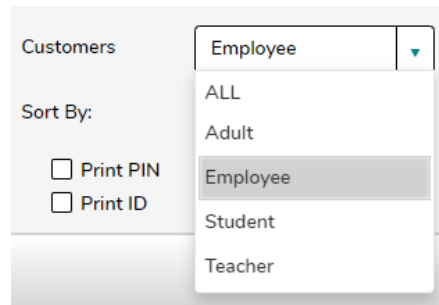

If Free or Reduced fields for Breakfast or Lunch are missing, an alert will display when the user selects the Save button.

Visiting Customer Meals Served Report

The Visiting Student Meals Served Report has been updated to support both student and adult meals for visiting patrons.

The "Customers" report criteria has been added and includes options for ALL, Adult, Employee, Student and Teacher.

Ability to select multiple schools on the Journal and Meal Counts Reports

The "School" report criteria allows users to select multiple schools from the list by holding the Ctrl or Shift keys.
